Nothing unusual reported by a/c in area. Object could have been a balloon, another a/c or almost anything. Due to witness' frequency in sighting UFO's, case is evaluated as probably misinterpretation of some conventional object. UNRELIABLE REPORT	

Dear Sir,

Feb 7, 1963

I would like to report the sighting of a U.F.O. "Fly Saucer" over Chester, Penna. on Feb. 6th. at 2-10 P.M. which I observed for over 10 minutes before it took off heading north. I saw this through 10-50 binoculars and your jets were also up at the same time and I presume they were looking for the U.F.O. I saw my first saucer in 1957 and have been a sky watcher ever since. In 1959 I saw 14 of these saucers, but since then they have seem to stop coming around this part of the country. I do hope before I go I find out where they come from and who is running them and maybe we will someday.

Sincerely Yours,

Mr. [REDACTED]
